B2B MONETIZATION ECOSYSTEM AROUND THE FISHER

Processing plants | Exporters | Restaurants | Government | NGOs

Customer Value proposition

From scattered information to better decisions

Product

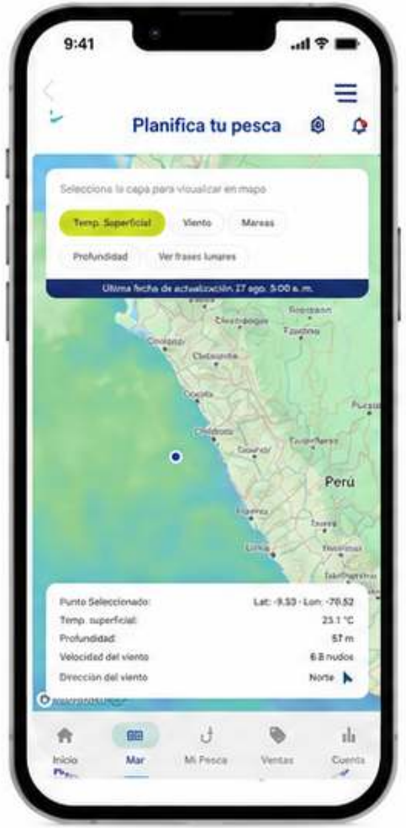

Pez Confiable

A system that supports the fisherman before, during, and after every fishing trip, turning his information into visibility and new opportunities.

1) Before
Sea · prices · regulations

2) During
Catch record · private coordinates

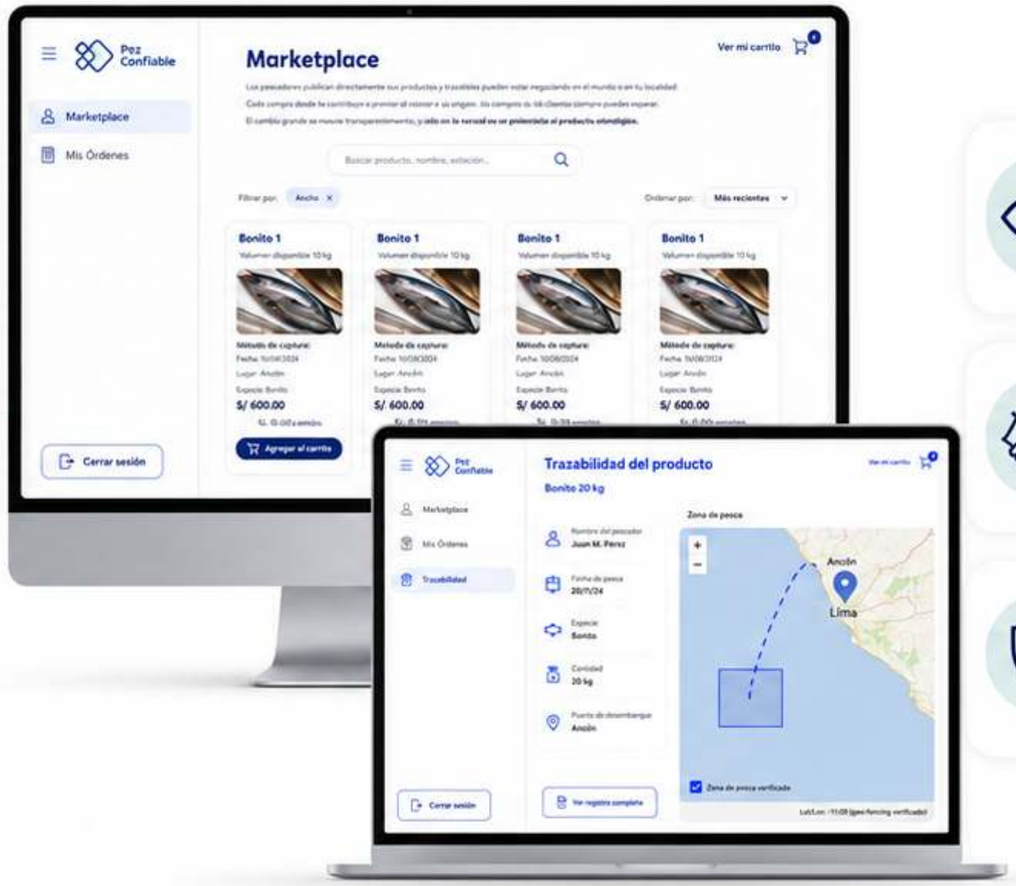

3) After
History · market connection

Private by default

Customer Discovery

28+ validation conversations changed our approach

25 fishers • **2** restaurants • **1** processing plant • leaders & intermediaries

Ancón • Lambayeque • Piura

01

Digital adoption

Fishers are willing to learn

Apps + family/community support help.

02

Commercial reality

One model does not fit all

100 kg supply ≠ 10 kg restaurant demand.

03

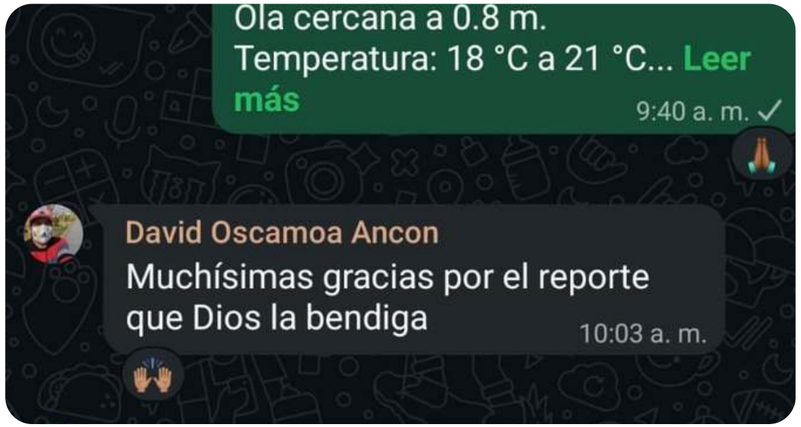

Value exchange

Fishers share data when they receive value

Ocean info • fair prices • market access.

Founder’s Dream & Team

Pez Confiable

May artisanal fishers be visible, valued, and receive value for the information they generate.

A fishery where sharing information benefits fishers and helps build a more transparent and fair value chain for everyone involved.
